

MOHIT PANDEY

SOFTWARE DEVELOPER | PYTHON & PHP DEVELOPER

India • +91 7258883148 • mohitrpandey@gmail.com

[LinkedIn](#) • [GitHub](#) • [LeetCode](#) • [HackerRank](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Entry-level **Software Developer** with strong hands-on experience in **Python, Django, PHP, MySQL**, and full-stack web development. Proven ability to design **REST APIs**, implement secure authentication systems, and build scalable database-driven applications using **MVC/MTV architecture**. Experienced in **Git-based** version control, cloud fundamentals (AWS, Azure), and agile development practices. Seeking a Software Developer Internship or Junior Developer role to contribute to real-world production systems.

TECHNICAL SKILLS

Programming & Frameworks: Python, PHP, C, C++, JavaScript, HTML, CSS, Django.

Databases & Backend: MySQL, SQL Server, MongoDB, SQLite, REST APIs, CRUD Operations, Authentication/JWT.

Cloud & Tools: AWS (EC2/S3 Basics), Azure Basics, Git, GitHub, Postman, VS Code, Jupyter Notebook, SDLC, Debugging.

INTERNSHIP / PRACTICAL EXPERIENCE

Python Developer Intern at [Zapuza Technologies LLP](#) | 15th November, 2025 - 15th May, 2026

- Worked on Python-based feature development aligned with business needs.
- Involved in requirement analysis, implementation, and continuous improvement of backend functionalities.
- Ensured code quality through debugging, optimization, and proper documentation.
- Performed debugging, unit testing, and managed source code versioning using **Git** and **GitHub**.

KEY PROJECTS

CASUITE (CA Suite 2.0) | Python, Django, SQLite | [Link](#)

- Developed and enhanced a centralized web application to manage clients, tasks, employee attendance, leave requests, invoices, and payment collections.
- Built and integrated key features including attendance tracking, payment collection and reporting, client onboarding, and task management using Django and Django ORM.
- Created responsive, dynamic interfaces using Bootstrap, JavaScript, jQuery, AJAX, and Select2, while handling database migrations, debugging, and feature optimization.

Curfew E-Pass Management System | PHP, MySQL | [GitHub](#)

- Built a web-based administrative system for issuing and tracking curfew passes using **CRUD operations**.
- Implemented user authentication, request handling workflows, and real-time database updates.
- Designed a centralized **admin dashboard** for record monitoring and reporting.

Social Media Web Application | Python, Django, SQLite | [GitHub](#)

- Developed a secure social platform using **Django MTV architecture** and session-based authorization.
- Implemented user authentication, post creation, likes, comments, and dynamic feeds using **Python**.
- Designed and integrated a relational database schema to handle complex user interactions.

EDUCATION

Master of Computer Applications (MCA) | [Suryadatta Institute](#), Pune | 2024 - 2026 (CGPA: 8.01)

Key Subjects: Data Structures, DBMS, Software Engineering, Cloud Computing, Web Development.

Bachelor of Computer Applications (BCA) | [Smt. Kashibai Navale College of Commerce](#), Pune | 2019 - 2022 (CGPA: 8.49)

CERTIFICATIONS & ACHIEVEMENTS

- **Oracle Cloud Infrastructure Associate:** Demonstrated knowledge of OCI compute/storage.
- **Cloud Computing Certification** by [NPTEL](#)
- **Software Project Management** by [NPTEL](#)
- **HackerRank:** 5★ Python Badge Holder
- **LeetCode:** Active Daily Problem Solver (Data Structures & Algorithms)
